

# Uploading GPS routes **wirelessly** from mobile to GPS device

(no PC needed)

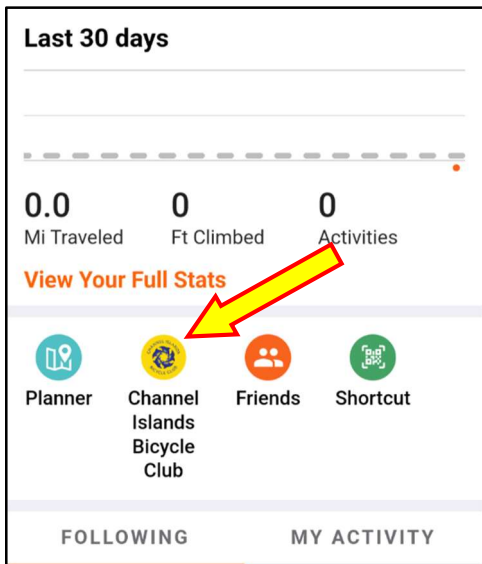

Rev. Jan 2026

For this procedure to work, you need to install the following Apps on your mobile:

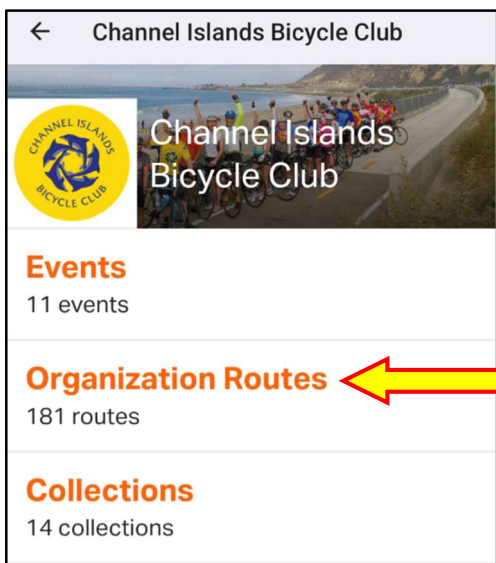

1. **ridewithgps** (RWG)
2. Garmin Connect

## Procedure:

1. Login to your personal account on RWG in your mobile
2. Tap **CIBike** logo

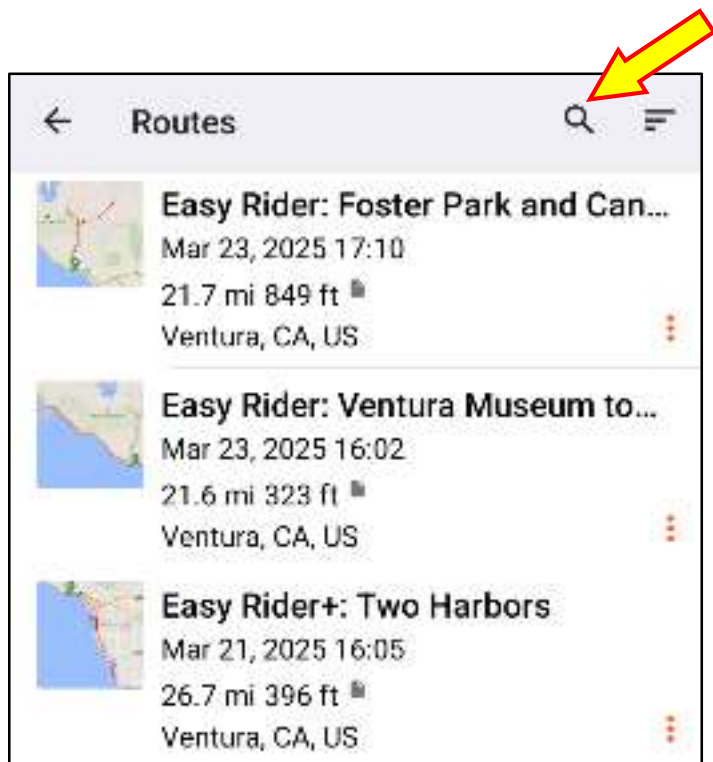

3. Depending on what course (route) you are looking for, tap to select one of the categories (for this example: Organization Routes)

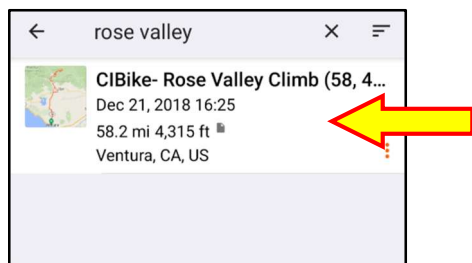

4. Tap & use  and type a key word to find the target course (route)

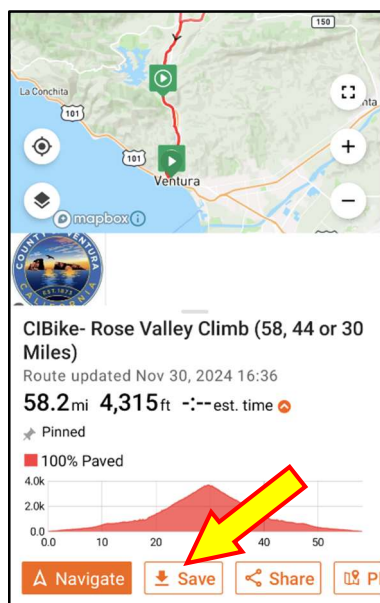

For this example (Rose Valley)

5. Tap the course

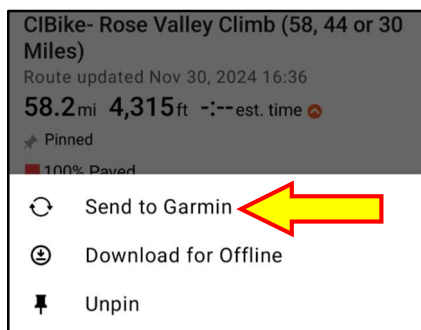

6. Click "Save"

7. Turn on your Garmin device (In this tutorial: Garmin Explorer 2 is used)

8. On your mobile, Tap “Send to Garmin”

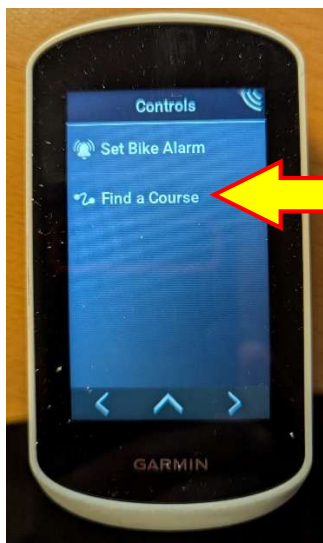

9. Go to the GPS device & tap the Sync icon (**observe the sync logo first. It may sync automatically**)

Then tap the right arrow to get to “Find a Course” page

10. Tap “Find a Course”

11. Rose Valley is waiting! Tap the course to load

12. Tap **"Ride"** once at the actual Ride Start. **Start pedaling!!**
